

High School to College Timeline

- ✓ Take on less things and do it well! Don't try to be in every club, try to be the leader of one or two clubs
- ✓ Use your summers wisely, internships, jobs, reading, SAT practice etc.
- ✓ Slow and steady wins the race → start early with good grades and extracurricular activities, don't wait until Senior year
- ✓ Get good grades (aim for at least a 3.0 GPA)

Every Year Matters!

- 9th grade → you want to start off on the right foot
- 10th grade → you want to build yourself a strong foundation
- 11th grade → there is a lot going on, you want to keep your grades up, but start preparing for college (extracurricular activities, SAT/ACT, etc.)
- 12th grade → APPLICATION TIME!
 - Try to send in your applications the summer before your senior year

*Why should I go to college?
How do I get into college?
How do I know where to apply?
How do I pay for college?
Can someone review my college application?*

Freshman

- focus on getting good grades
- join clubs, sports, or extracurricular activities and clubs for experience

Sophomore

- take the PSAT
- ask to enroll in Honors classes if your grades are good
- keep up with your clubs
- gain volunteer hours

Junior

- take an AP course or two
- prepare for your SAT
- try to be a club leader
- think of colleges you want to go to
- Take your SAT or ACT

Senior

- APPLICATION TIME
- early admission deadlines
- Relax you made it!
- FAFSA!
